

Tech-Talk of the Competence Centre on the Future of Work

..... 11 October 2021

Tech-Talk on Digital Service Act

Invitation

We would like to invite you to our **Tech-Talk on the Digital Service Act at 4–5 p.m. on 11 October 2021.**

The Digital Services Act (DSA) constitutes the biggest legislative reform in the history of the EU digital economy. In order for Europe to be ready for the digital age, the European Commission is proposing a disruptive attempt to regulate tech giants like Google, Facebook or Amazon by imposing obligations on digital service providers, with the focus being on four principles: transparency, empowering users, risk management and industry cooperation.

With our Tech-Talk on the Digital Service Act we would like – together with **Athina Angeliki Tsitsou**, (European Commission), **Tiemo Wölken** (MEP) and **Aida Ponce del Castillo** (ETUI) – to shed light on what the DSA is exactly and how it will affect the EU digital economy in the future.
